Hearing Education And Rehabilitation

HEAR U: Aural Rehabilitation

The ART of Hearing: Communication Strategies Training

Join us for HEAR U , a series of classes, provided by Audiologists at the Hearing and Speech Center.

Even with a well-fit hearing aid, communication can still present a problem for many hard of hearing individuals. We strongly encourage you to come to HEAR U for information about hearing health and ways to better utilize hearing aids

Session Information:

We will meet every month to learn Aural Rehabilitation techniques. These techniques give your brain opportunities to boost understanding, especially in complex listening environments. It is also important for your family to understand what type of hearing loss you have and learn ways to communicate with you more effectively. Bring them along! Each month we will give you new strategies and have guest presenters, so please come to all 6 sessions in this series to get the maximum benefit.

Session Dates will be the 3rd Saturday of the month starting August 2018:

August 18th

September 15th

October 20th

November 17th

There will be no class December

Time: 12:15 to 1:15 p.m.

Location: Community Lab at the Hearing and Speech Center

(Please check in with the front desk)

1234 Divisadero St.
San Francisco, CA 94115
